Unified Communications Market 2023-2028 is published by The Eastern Management Group in August 2023.

Researching and forecasting the global deployment of unified communications (UC) reflects a significant undertaking by The Eastern Management Group.

To create the report, we gathered global data both from vendors and customers.

Bringing this report together required completed surveys from more than 49,000 Information Technology (IT) managers and technology vendors worldwide. Surveys were done by the Eastern Management Group with businesses ranging in size from one employee to more than a million in 19 vertical markets and seven world theaters.

To this information, the Eastern Management Group added 35 years of quarterly PBX market data from our MonitorSM reports. All of the gathered intelligence was used in models and analyzed by our consulting team in order to produce this important 143-page report including more than 50 tables and charts.
